

Dormitory Network Application Process

Description: The following example is based on Internet Explorer 11!

Step1

- The dormitory network service is for the use of our school's residents and fall within the scope of on-campus. Therefore, the dormitory network management system will be restricted to the school's **internal network** using to reduce potential external network risks.
- The applicant must have an **student Email account** or a **student Dormnet account**.
- Enter the https://dormnet.nthu.edu.tw/~dormnet/index_E.html website. (**NTHU IP Only**)

NTHU Domitory Network(DormNet) Management System (中文)

NTHU Student Dormitory Network Application System

Please read carefully and abide by the regulations in the following two pages

1. The Student Dormitory Network (hereinafter referred to as Dormnet) is part of the campus network. Its main purpose is to facilitate those residing in the school's student dormitories in their pursuit of academic research.
2. Application details
 - a. Application requirements: All students of this school residing in the student dormitories may apply to use Dormnet.
 - b. Application submission date:
 - Application for the current academic year's Dormnet service begins before the academic year. After the start of school, the service is available for use when the new IP is assigned.
 - Reapplication is required for use during summer vacation, the application method for which will be announced before the summer vacation.
 - c. Application method: Applications and changes are to be done through the Dormnet Application System.
 - d. When not using Dormnet or leaving the school, cancellation of the account must be done through the Dormnet Application System
3. Dormnet provides each user with a communication socket (Ethernet RJ-45 interface).
4. Computer and network communication fees
 - a. During the 2nd executive meeting for academic year 2014, held December 2nd, 2014, it was resolved that for each semester, all students are required to pay a Computer and Network Communication Fee. Starting from the second semester of academic year 2014, non-residents are to pay NT, and residents NT; the fee is waived for students from low-income and middle-low-income households
 - b. Not collected during winter and summer vacation
 - (Winter and summer vacation are the regular equipment tuning and maintenance periods for the Center's Dormnet system).
5. Breakdown Maintenance
 - a. The appointed dormitory network manager will go to the site at the arranged time to help network users with their queries, resolve problems, and report based on fault reports.
 - b. Dormitory network repair and maintenance times:
 - [Dormnet on faults, network equipment failure, network connection failure, etc. may be suspended during working hours \(8:00 a.m. to 5:00 p.m.\)](#)

Step2

- Please read carefully and abide by the regulations, then click "Accept".
