IE Content Has Been Blocked, Cannot Resend Mail

The following error occurs when trying to resend mail using Webmail on Internet Explorer: **"Content was blocked because it was not signed by a valid security certificate. For more information, see "Certificate Errors" in Internet Explorer Help."**

- To continue resending the letter, follow the instructions above: **"To help protect your security, Internet Explorer has restricted this webpage from running scripts or ActiveX controls that could access your computer. Click here for options…", click and then select Show**. Try again and the mail will no longer be restricted by IE.
