

Domain alias @cloud.nthu.edu.tw

Since 2019/08/19, **we've added a domain alias @cloud.nthu.edu.tw to our G Suite email @gapp.nthu.edu.tw.** Here's how it works (The following messages are rewritten from <https://support.google.com/a/answer/7504451?hl=en>):

- You have an email address at both **primary domain @gapp.nthu.edu.tw** and **domain alias @cloud.nthu.edu.tw.**
- All messages arrive in your **primary domain @gapp.nthu.edu.tw** mailbox.
- You can reply to messages from either of your **primary domain @gapp.nthu.edu.tw** or **domain alias @cloud.nthu.edu.tw** addresses.
- Google Calendar invites and sharing invites are sent only from your **primary domain @gapp.nthu.edu.tw** address.

To send messages from your new address at domain alias @cloud.nthu.edu.tw

1. On your computer, open Gmail <https://mail.google.com/>.
2. In the top right, click **Settings**.
3. Click the **Accounts and Import** or **Accounts** tab.
4. In the "Send mail as" section, click **Add another email address**.
5. Enter your name and your new address at **domain alias @cloud.nthu.edu.tw**.
6. Click **Next Step** and follow the confirmation steps.

When you're in Gmail, you can choose which address to send from.

Tips

- You'll sign in your G Suite account with the **primary domain @gapp.nthu.edu.tw** address
- You can create documents and files only with your **primary domain @gapp.nthu.edu.tw** address
- People can share files with either your **primary domain @gapp.nthu.edu.tw** or **domain alias @cloud.nthu.edu.tw** address
