

Date **2023/11/10**

Starting from November 10th, the dormitory network management system will be restricted to the school's internal network using.

Subject **Starting from November 10th, the dormitory network management system will be restricted to the school's internal network using.**

Description

1. The dormitory network service is for the use of our school's residents and fall within the scope of on-campus. Therefore, the dormitory network management system will be restricted to the school's internal network (IP range: 140.114.0.0/16, 120.127.160~191.*) using to reduce potential external network risks.
2. About dormitory network related instructions and Q&A information, please refer to the student dormitory network service on our website (<https://net.nthu.edu.tw/netsys/dormnet>).
3. The school's internal network generally refers to networks connected through campus wireless or wired network, such as dormitory network, computer classrooms or library, etc.
4. During the announcement period for dormitory network applications at the beginning of the school year and during the summer vacation, the dormitory network management system will not restrict off-campus internet browsing and usage within the three-week period, to facilitate students' use.
