[Vulnerability Alert] SAP Patches Critical Security Vulnerability in Print Service (CVE-2025-42937)

- Subject: [Vulnerability Alert] SAP Patches Critical Security Vulnerability in Print Service (CVE-2025-42937)
- Content:
 - Forwarded from Taiwan Computer Network Emergency Response Team/Coordination Center TWCERTCC-200-202510-00000006
 - SAP Print Service is a cloud printing solution that sends documents from the cloud to local printers, offering monitoring and management for print tracking features. A recent SAP monthly update announced one critical security vulnerability (CVE-2025-42937, CVSS: 9.8) in this service. The vulnerability stems from insufficient validation of user-supplied path information, allowing an unauthenticated attacker to traverse directories and overwrite system files.
- Affected Platforms:
 - SAPSPRINT versions 8.00 and 8.10
- Recommended Action:
 - Please apply the patch from the official website:
<https://support.sap.com/en/my-support/knowledge-base/security-notes-news/october-2025.html>
