使用驗證寄信(SMTP AUTH)伺服器寄信者，會在郵件記錄器的送件匣(本地發送或外部發送)上留有備份，查詢其寄信記錄及信件備份，請參閱「[如何找尋郵件記錄器中的信件？](#)」

The screenshot shows the Mail Reporter interface for user 'maching'. The left sidebar contains a calendar for January 2010 and a list of mailboxes: '送件匣 (外部寄來)', '送件匣 (本地寄來)', '送件匣 (本地發送)', and '送件匣 (外部發送)'. The main area displays a list of 32 outgoing messages. The table below summarizes the visible entries:
